

## BUTTERFLIES!

*"This fun and colorful craft was inspired by one of our readers!"*

### SUPPLIES NEEDED:

For one butterfly ~

- 3 pipe cleaner craft sticks - 2 of one color, 1 of one color
- Colored beads and/or pearl beads
- Sequins
- Craft Puffies in different colors
- Glue

### HOW TO MAKE:

1. For the butterfly wings, twist 2 pipe cleaners into the shape shown in **picture A**. Leave a small stem (see black arrow) sticking out on each pipe cleaner. Then connect the two parts together by twisting and wrapping the stems around each other.
2. To form the butterfly body, fold the third pipe cleaner in half as seen in **picture B**.
3. Add your beads or leave it empty to glue on puffies after butterfly is assembled. Curl the top ends around to form the antennae. **See picture C**.
4. Add the butterfly body to the wings and twist together at the top of the beads to hold the antennae and body together. **See picture D**.
5. If you desire, decorate your butterfly by gluing sequins and/or puffies.

So that if anyone is in Messiah, he is a new creation; the old things have passed away; behold, all things have become new!  
2 Corinthians 5:17
